

Begin by signing in at <https://www.nsp.org>. Click on 'Center for Learning'. On the landing page will be 'Featured Learning'. You should see this:

Click on this OEC Program icon. You can also find this by searching the 'Browse Catalog' feature as you did for previous courses.

You will next be taken to the course registration for the OEC Refresher.

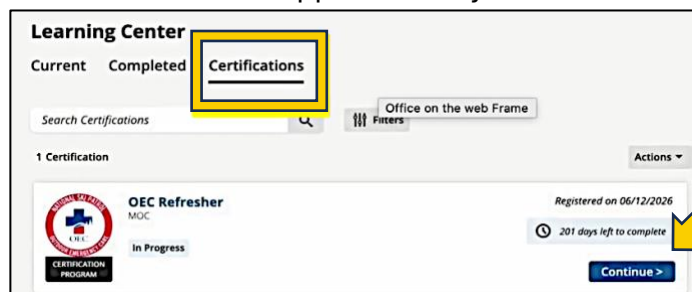

Click on 'Choose Path'

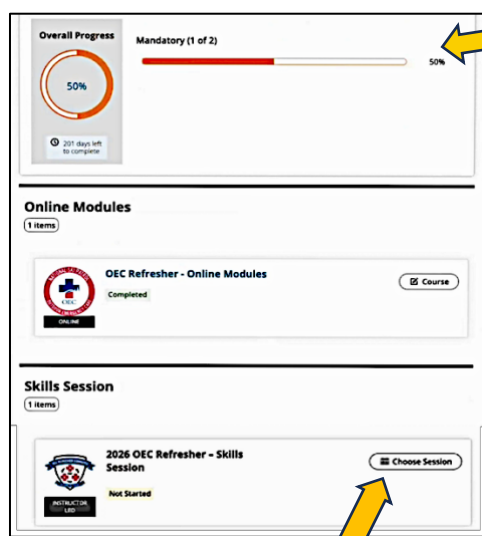

You will then see this >  
Click on:  
'OEC Refresher Enroll'

The OEC Refresher Course will now appear in your 'Learning Activities' under 'Current', but it will also now appear under your 'Certifications' tab.

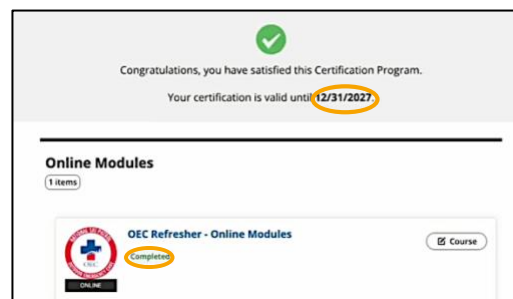

Select 'Continue' to open the program and begin modules.

From this next screen you will find a progress bar which will track your course progress and enrollment for BOTH portions of the course – The Online Modules and enrollment in the Skills Session for your in-person Skills Session at your mountain or area. From here you can track your progress and know you are not done until you have completed 100% on your progress bar!

And watch for the course completion screen!

Click on 'Choose Session' here when you are ready to enroll in your hands-on OEC Skills session at your area. Don't forget this is a required element in order to receive Refresher Completion credit!
